

Nimb becomes
Denmark's first hotel
with a rooftop pool

A rooftop terrace of 1300 m² complete with a 60m² outdoor pool, a pool bar and lounge area has been established on the rooftop of the Tivoli Corner building, which has recently received a prestigious international award. The rooftop terrace is part of Hotel Nimb and offers a unique location with views to the cityscape and Tivoli Gardens. The new rooftop lounge area is open as of today. Hotel guests are not the only ones to enjoy Nimb's new rooftop. Three times a week special dining and music events will be hosted where everyone is welcome. With the completion of Nimb Roof, two more new initiatives are being launched: Nimb Club and Nimb Wellness.

Nimb's chief designer René Jasper Thomsen has developed the creative idea and design behind Nimb Roof:

"When the opportunity arose to create an even better guest experience for Nimb's many guests, while adding something new and international to Copenhagen, we decided to create Nimb Roof with an outdoor heated pool, lounge area and bar."

The special Nimb style, which is so popular that it is also highly appreciated abroad, can also be enjoyed in the custom-designed rooftop pool area overlooking Copenhagen.

Nimb Roof is very private and designed to appeal to even the most discerning guest. Great attention has been given to detail: the lounge furniture is painted black to suit the Nimb style, and the pool has been clad with Italian mosaic, hand-sorted and selected to make all the different shades create a perfect underwater interplay.

The 60m² pool has a counter-flow feature, allowing guests to swim on the spot for a long time, even though the pool is short. The terrace offers spectacular views of Copenhagen and Tivoli Gardens from all angles.

Nimb's chief designer René Jasper Thomsen about Nimb Roof:

"I'm proud that we managed to introduce the Nimb style on the roof. Our mantra is 'time and space are luxuries' – from the large rooms and suites and – from an industry perspective – the large bathrooms to Nimb Bar with its high ceilings and now also Nimb Roof with plenty of space to enjoy your time and the unique views."

CEO of Tivoli Gardens Lars Liebst expresses great satisfaction for Nimb Roof:

"Nimb Hotel has over a number of years achieved great international recognition. It is therefore natural that we have now gone one step further, and as the first hotel in Denmark, we offer a custom-designed rooftop pool with pool bar and lounge area. Partly to meet the growing demand for unique hotel accommodation in the exclusive end of the market, and partly to help position Copenhagen and Denmark in relation to a quality conscious and attractive target group."

Unique events for everyone on the rooftop terrace

Local Copenhageners can look forward to a unique opportunity to experience the rooftop terrace when Nimb hosts special events three days a week under the headline *Summer in the City*. The events will be featured in June, July and August with the option of prolonging the season, weather permitting. Tuesday Cook-Out is the opening barbecue event, where seafood, fish and meats are prepared on the grill by Nimb's chefs. The Rosé Bar will serve rosé ad lib. On Thursdays from 21 June, Nimb Nights Open-Air will be hosted with concert performances by Frederikke Vedel & All Stars and with bubbles and tapas served from 19:00. The live concerts start at 20:00. On Saturdays, there will be Saturday Night Live with cocktails from the new Pool Bar and guest deejays. Sign up here: www.nimb.dk/summer

New luxury health club

Nimb Roof is open to Nimb's hotel guests as well as members of the new Nimb Club. With a Nimb Club membership, you will be issued with a gold card for Tivoli Gardens and will gain access to Nimb Club's exclusive facilities: Nimb Roof & Nimb Wellness. Membership also offers opportunities for training in the gardens on special occasions. The fee for membership of Nimb Club is DKK 2,500 per person per month or 25,000 DKK per person per year. Membership fees are prepaid. The number of Nimb Club members is limited.

Exclusive fitness and wellness area opens in August

In August, the last touch will be added to Tivoli Corner with the opening of Nimb's fitness and wellness area, Nimb Wellness, which is exclusively reserved for hotel guests and Nimb Club members. Here you will find a hammam, massage rooms and fitness machines, allowing you to exercise and enjoy personal massage treatments. The fitness studio is fully equipped with the latest Technogym machines, including TRX equipment and a specially-equipped 34-degree heated room for cardio training. The Nimb Wellness area has separate rooms for massage and treatments.

About Nimb Hotel

The award-winning luxury Nimb Hotel offers the greatest variety of restaurants under the same roof of any hotel in the world. In 2015, Nimb Hotel was voted the World's Best Hotel by Small Luxury Hotel among 520 hotels in 82 countries. Tivoli Gardens has invested a nine-digit DKK figure in the construction of Tivoli Corner, which opened in November 2017. And as part of the project, Nimb Hotel was expanded with 21 new rooms, each with a balcony overlooking Tivoli Gardens. And now, Nimb Roof has been launched, which will be followed by Nimb Wellness in August.

Award for Tivoli Corner

Tivoli Corner was recently acknowledged with an American Architecture Award, which is an accolade given to building and landscape designs by American architects in or outside the United States. *"The nation's largest public award, given by a cultural and educational institution that is non-commercial and unrelated to the industry."* That's how the American Architecture Award is described. The award is hosted by The Chicago Athenaeum: The Museum of Architecture and Design and The European Center for Architecture Art Design and Urban Studies.
